PROFESSIONAL EXPERIENCE

Congruex|WhiteCo - Nationwide

September 2024 - Present

Telecom Fiber Optics

Participate in the expansion of Internet infrastructure, contract with companies such as Comcast and Google, responsible for installing, splicing, testing, and maintaining fiber optic cables to ensure high-speed data transmission and reliable telecommunications services across the United States.

- Work with both aerial and underground fiber systems in various environments, including construction sites, utility poles, and network facilities.
- Leverage technical skills, paying attention to detail, use fiber optic tools and equipment such as optical time-domain reflectometer (OTDR), fusion splicers, and power meters.
- Splice and terminate single-mode and multi-mode fiber optic cables.
- Perform fiber testing using OTDR, power meter, and light source.
- Read and interpret network schematics, blueprints, and fiber assignment documents.
- Troubleshoot and repair damaged fiber cables and network outages.
- Maintain accurate records of fiber routes, splices, and test results.
- Ensure work is completed in compliance with industry standards and safety regulations.
- Collaborate with site supervisors, project managers, field technicians, construction crews and other team members to meet installation deadlines.

Freelance, Colorado

May 2022 - Present

Graphic Designer

Collaborate with small business clients, design digital assets such as logos, social media graphics, websites, promotional videos and materials.

- Translate ideas into compelling visuals across different mediums and platforms.
- Manage projects to ensure on-time delivery within budget.
- Use creative skills to develop visual content that effectively communicates brand messages, supports marketing campaigns, and engages target audiences.

- Stay current with design trends, software updates, and industry best practices.
- Communicate effectively with clients to ensure clarity on expectations and deliverables.

Limelight Trendy, Colorado

May 2023 – December 2024
